

LET'S BUILD ON PROGRESS AND PROTECT WHAT MATTERS

When you elect a councillor, you're choosing someone to be your voice – to advocate for your division and make county-wide decisions on your behalf.

Local decisions shape your daily life – the taxes you pay,
and how your community grows.

County-wide choices shape Rocky View's future
– a future that is in your hands.

Thanks to determined efforts by residents, the tide against
the old pro-development status quo was turning.

In 2021, we made real progress – but it wasn't enough.
Now is the time to finish what we started!

With the right choices, we can protect what makes Rocky View special
and build a more balanced, responsible future for everyone.

Track records matter. Look closely at who truly stands up for residents.

Some incumbents prioritize your voice and Rocky View's long-term health
– Samra, Hanson, and Wright –

Others – Kissel, Kochan, and Boehlke – too often align with the “old boys’ club”,
backing narrow interests, not the broader community.

They may vote the right way when the spotlight is on – but on equally important
lower-profile issues, their record tells a different story.

As well, be cautious of recycled candidates from past councils
who put rampant development ahead of residents' concerns

– Ashdown, Gautreau, and Kamachi –
We've seen where that path leads.

Rocky View deserves better!

Let's move forward and build a smarter, more accountable future.

Get Informed – Vote!

The election is October 20th

Together we can make a difference!
