

ROCKY VIEW NEEDS CHANGE

We need a Council that puts its residents first

Why Should You Care?

Because this Council's majority (McKylor, Schule, Gautreau, Boehlke, and Henn) have repeatedly ignored residents. Instead, they:

- Killed the Aggregate Resource Plan - after promising to move it forward
 - Approved high density residential and commercial development in Springbank and Bearspaw - despite near unanimous opposition from residents
 - Rammed through a revised Municipal Development Plan with few rules
- Rammed through two new Springbank Area Structure Plans despite overwhelming opposition from affected residents
 - Approved a gravel pit next to Big Hill Springs Provincial Park contrary to a request from Alberta Parks
 - Increased borrowing with no realistic repayment plan
- Continued to spend ratepayers' tax dollars to appeal the sanctions case that was thrown out by the court - despite the reality that the appeal will not be heard until long after the election
 - Refused to adopt a voters' list
- Stopped newspaper advertising - eliminating residents' easy access to information

A Council that prioritizes residents' interests would not do these things

It is important to look critically at all candidates

Many candidates will say they represent your interests

You need to ask them hard questions

Get Informed - Vote!

The election is October 18th

Together we can make a difference!
